

XPERT-K1500

Product price:

€79.90 tax included

SWITCHES RED: XPERT K1500 is a new generation of gamer keyboard. With its rounded edges and anodized aluminum chassis, the keyboard integrates a real technology concentrate with its Red Low Profile mechanical switches.

COMPATIBILITY: Compatible with all operating systems: Mac, iOS, Android and Windows, XPERT K1500 is multiplatform! You can easily switch between them thanks to dedicated commands. The keyboard is perfectly suitable for use at home, in the office but above all to play.

FIL AND FILAR MODES: The keyboard offers 3 connection modes. Wireless with RF 2.4 GHz, Bluetooth and wired technology with the included USB cable. In Bluetooth mode, you can connect up to 3 different devices. So you can use it on your smartphone, laptop and tablet without having to reconnect it every time.

PROGRAMMABLE MACROS: The XPERT K1500 PC-compatible app allows you to take control of your keyboard. You can create up to 3 profiles and configure all keys of the keyboard by assigning: a macro, a shortcut, a multimedia function. It also allows you to customize the backlight in a selection of 20 predefined modes but also the speed and brightness of the effects.

RGB LIGHTSHOW: Equipped with the LIGHTSHOW system, its dedicated multimedia controls allow you to quickly adjust the sound volume, read, pause... but also control the RGB backlight.
