

XPERT-K200 DARK

CONNEXION MODE : Enjoy unparalleled versatility thanks to our three connection options: wireless via RF 2.4 GHz, Bluetooth, and wired with the included USB cable. In Bluetooth mode, the ability to connect up to three different devices will allow you to easily use the keyboard on your smartphones, laptops and tablets, without needing to reappraise each use. In addition, the XPERT K200 is compatible with Windows, Mac, iOS and Android, ensuring an optimal user experience on a wide range of platforms.

FORMAT 60% ULTRA COMPACT : All features of a gamer keyboard are now available in a more compact design, adopting the TKL format (Ten Keys Less) with only 64 mechanical keys. The XPERT K200 is specially designed to give you more space and freedom of movement to your mouse.

100% ANTI-GHOSTING MECHANIC: Equipped with mechanical keys with red Switch, our keyboard eliminates any fear of combinations of involuntary keys. Thanks to the Anti-Ghosting function, you can finally press several keys simultaneously without fearing any interpretation error. This is an essential feature for uncompromising performance.

EXCEPTIONAL ADVISORY : With its 1800 mAh rechargeable lithium battery, XPERT-K200 guarantees a comfortable range of up to 180 hours of continuous use. Recharge this keyboard is a child's game: just plug in the included USB-C cable to regain all the power you need.

22 RGB MODES: XPERT-K200 goes well beyond a simple keyboard thanks to its advanced customization features. You have total control over your backlight, with the ability to adjust the brightness and speed of the effects according to your preferences. XPERT-K200 offers an impressive backlight palette, with no less than 7 different colors and 22 RGB effects to enhance your

configuration. The configuration of these effects is done directly from the keyboard thanks to incredibly simple key combinations or directly from the software.

COMPLETE AND INTUITIF:

With our intuitive software, XPERT-K200 offers complete customization:

Programmable keys: Configure your keys as you like for a custom game experience. Choose the functions that best suit you and access shortcuts in a moment.

Macro: Simplify complex actions by creating custom macros. Automate key sequences to gain an undeniable advantage in your favorite games.

Retrolighting RGB: Customize your keyboard lighting with a palette of 16.8 million colors. Express your style by creating unique atmospheres for each game or use.

Profiles: With the ability to save up to 3 different profiles, you can switch from one configuration to another in a flash, depending on your specific needs.

Special mode Music: Amplify your immersion during your game sessions with our 7 "sound and light" RGB modes synchronized with the music and sound effects of your game, to enhance the atmosphere of your games.
