

## EPIC 34"

**An impressive Dalle VA!** Dive into the gaming universe with our EPIC 34" gamer screen equipped with a VA slab. This technology offers rich colors and deep blacks for striking visuals, and wide vision angles ensuring that every detail of your game is clearly visible, regardless of the angle.

**At the heart of action...** EPIC 34" displays a R1500 curvature that wraps your vision, creating a captivating visual field. This soft curvature, forming an arc with a radius of 1500 mm is breathtaking: it allows you to immerse yourself completely in your game, reducing visual fatigue and placing you at the heart of the action for an unmatched gaming experience.

**Extreme fluidity** With a refresh rate of 165Hz, this gamer screen offers a smooth experience, eliminating the motion blur for sharp and reactive images. Combined with an ultra-fast response time of 1 ms MPRT, every action you take in the game is instantly reflected on the screen, giving you a critical advantage in the competitions.

**Surgical precision!** To top it all, EPIC 27" supports the HDR technology (High Dynamic Range) offering even brighter images, with stunning contrasts and bright colours. The ultra-fast response time of 1 ms MPRT ensures that you are always ahead of your opponents, ensuring exceptional responsiveness to avoid any opportunity to react. Each movement will be of surgical precision, propelling your performance at stake to new heights.

**Optimum visual comfort:** Discover the ultimate gamer screen that redefines the game experience with FreeSync for fluid movements, the blue anti-light to reduce eye fatigue, and a 178° vision angle for exceptional image quality. The integrated overdrive ensures fast response times, ideal for fast games, and the "Flicker Free" technology
