

WHEEL PRO 1

ULTRA-REALISTE: With its non-slip coating, 26 cm diameter and angle **rotation of 180°**, Race Wheel Pro is the ultimate simulation accessory, for an ultra-realistic gaming experience, whatever your vehicle: **racing car, kart, bus or tractor.**

THE PILOT IS YOU Become a real driving professional, Race Wheel Pro is **a complete kit !** An ergonomic wheel equipped with 8 buttons, directional cross... sequential pallets, sequential gearbox and also brake and acceleration pedals.

VIBRATION Designed to offer a realistic driving experience, the steering wheel allows you to **adjust its sensitivity** on three different levels. And for more sensations, it is equipped with **vibration engines** which allow you, for example, to feel the crumb drop after a badly negotiated turn.

PROGRAMMABLE 6 buttons are adjustable if you want to switch the map of your steering wheel with 8 other buttons. The **mappage** allows you to customize the way you control the game with the steering wheel according to your preferences.

GAME ON The steering wheel is compatible with Windows® 7 to Windows® 11, allowing you to **enjoy your favorite simulation games**. It offers great flexibility thanks to its **3 configuration modes** : Dinput Analogue, Dinput Digital and Xinput, to adapt to a multitude of games.

DRIFT IN ALL SECURITY With 7 cups and a attachment kit included, you can **fix solidly the steering wheel on a desktop or simulation cockpit**. With your hands firmly attached to the steering wheel, you can safely perform Drifts, without fearing that the steering wheel will come from the first turn.

Product price:

€69.90 tax included

Product features:

Longueur du câble: Volant : 1.80 m

Longueur du câble: Pédalier : 1.60 m

Plateforme(s) supporté(e)s: PC
