

QUICKFLEX 45W

Recharge your everyday life in a flash.

The QuickFlex 45W charger from Advance simplifies your life with ultra-fast charging: up to 50% of battery in just 30 minutes*. An express boost for your busy days, whether you are on the move, at the office or running between two appointments. No more endless waiting, you plug in, you go.

One charger, all your connected worlds.

With its two ports - USB-C Power Delivery 3.0 and USB-A Quick Charge 3.0 - the QuickFlex 45W is compatible with a multitude of devices: smartphones, tablets, laptops, consoles, smartwatches... It replaces several chargers on its own, to allow you to travel lighter, organize your desk, or simply charge everything that matters in a blink of an eye.

Compact, powerful, always ready to follow you.

Thanks to GaN (gallium nitride) technology, the QuickFlex combines maximum power and mini format. With its 86 grams and reduced dimensions, it easily slips into a pocket or a tech pouch. Its advanced internal structure allows optimal heat dissipation, for constant performance, wherever you are.

Intelligent and secure: charging without compromise.

The QuickFlex automatically detects the needs of your device thanks to PPS technology, and adjusts the power in real time for a fast, safe and perfectly optimized charge. It is also equipped with protections against overvoltages, overloads, overheating and short-circuits, to offer you total peace of mind with each use.

Compatible with your pace, no matter the brand.

Designed to adapt to all your devices, the QuickFlex supports Apple 2.4A, Samsung AFC, Huawei FCP, DCP charging technologies and many more. Whether you are loyal to the Apple, Android or multi-platform universe, it naturally integrates into your connected daily life. You plug in, it works,

just like that.
