REBEL NX ARCTIC

A compact chassis that unleashes the power of your setup: REBEL NX accommodates ATX, mATX, and ITX motherboards, offering total flexibility to create your ideal configuration. Compatible with graphics cards up to 325mm and CPU coolers up to 160mm, it is ready to accommodate the most powerful components to unleash all the power of your machine.

Efficient cooling with immersive RGB backlighting: Equipped with 4 pre-installed ARGB 120mm fans, REBEL NX ensures optimal airflow to keep your components cool even under full load. It can accommodate up to 6 fans and an AIO water cooling up to 360mm in the front, guaranteeing controlled temperature during your most intense gaming sessions. In addition to its 14 integrated RGB modes, the ARGB backlighting of the fans can be synchronized with compatible motherboards: ASUS Aura Sync, RGB Fusion Ready, MSI Mystic Light Sync... to create a perfectly harmonized RGB ecosystem with your entire configuration.

Complete connectivity at your fingertips: The front I/O panel provides 1 USB 3.0, 2 USB 2.0 and an HD audio jack for headphones and microphone. With its indicator LEDs, Power and Reset buttons, you maintain control of your setup with ease, ready to start your games at any time.

Modular storage to meet your needs: REBEL NX offers flexible storage capacity with two possible configurations: up to 4 2.5'' SSDs + 1 3.5'' HDD, or 2 2.5'' SSDs + 3 3.5'' HDDs. Whether you prioritize the speed of SSDs or the capacity of hard drives, you can adapt your chassis to your use and ambitions.

A robust and practical gamer design: Combining 0.55mm SPCC steel, Metal Mesh front and tempered glass side panel, the REBEL NX displays a resolutely gamer style and highlights your ARGB configuration. The removable dust filters and integrated cable management

facilitate maintenance and ensure a clean and efficient assembly. Compact and lightweight, it combines aesthetics, performance and practicality for gamers who want to impress.

Product features:

Main characteristics: Compatible VGA graphics card: max length 325 mm
Main characteristics: Compatible format(s): ATX, mATX, ITX
Main characteristics: Extension ports: x7
Main characteristics: CPU compatible heatsink or water cooling: maximum height 160 mm
Panel I/O: Power Button
Panel I/O: 1 x USB 3.0 / 2 x USB 2.0
Panel I/O: LED Indicators / Reset (or RGB)
Panel I/O: 1 x HD Audio (Headset/ Microphone)
RGB Adressable: Compatible: Asus Aura Sync, RGB Fusion Ready, MSI Mystic Light Sync, ASROCK Polychrome Sync
Berries: Configuration 1: 2.5" SSD x 4 + 3.5" HDD x 1
Berries: Configuration 2: 2.5" SSD x 2 + 3.5" HDD x 3
Pre-installed fans (included): Before: 3 x 120 mm ARGB pre-installed
Pre-installed fans (included): Maximum fan capacity: 6
Pre-installed fans (included): Rear: 1 x 120 mm ARGB preinstalled
Fan slots (not included): On top: 2 slots for 120 mm fan
Design: Cable management
Design: Removable dust filters
Design: Location in the special thermal insulation compartment

Design: Metal mesh + ABS facade
Design: Screw opening walls
Design: ATX power supply 176 mm max (not included)
Design: Tempered glass wall / SPCC Steel Frame 0.55 mm
Design: Chassis (L*W*H): 33 x 20 x 43 cm
Design: Case (L*W*H): 37 x 20 x 45 cm
Design: Weight: 4 Kg
Watercooling supported: Front: 360 mm max
Watercooling supported: Rear: 120 mm max
