

REBEL XT ARTIC

A compact and versatile chassis for your gaming setup: REBEL XT is designed to accommodate your ATX, mATX and ITX configurations in a compact format ideal for small spaces. Compatible with graphics cards up to 290 mm and CPU coolers up to 155 mm, it provides you with the flexibility you need to build a powerful, custom machine.

A powerful, customizable ARGB cooling system: With its 4 pre-installed 120 mm ARGB fans, REBEL XT combines effective cooling and captivating RGB style. It can accommodate up to 7 fans in total, including in the PSU compartment, and supports an AIO watercooling up to 240 mm at the front, ensuring stable temperatures even during long, intense gaming sessions. Aesthetically, enjoy 14 built-in RGB modes or synchronize the ARGB backlighting with compatible motherboards: ASUS Aura Sync, RGB Fusion Ready, MSI Mystic Light Sync... to create a unique RGB atmosphere perfectly coordinated with the rest of your setup.

A comprehensive front panel for immediate access: The I/O panel of the REBEL XT includes 1 USB 3.0, 2 USB 2.0, HD Audio headset and microphone, as well as Power, Reset and LED indicators. Everything is designed for you to start your games without waiting, with controls at your fingertips for a smooth and intuitive gaming experience.

Simple and efficient storage for essentials: REBEL XT gets to the point with 1 SSD 2.5" and 1 HDD 3.5", perfect for your main games and essential files. This compact storage choice promotes optimized airflow, ideal for performance and speed-oriented configurations.

An elegant gamer design that's easy to maintain: With its Metal Mesh front, tempered glass side panel and 0.4 mm SPCC steel chassis, the REBEL XT combines robustness and modern gaming style. The removable dust filters, integrated cable management and hand screw panels simplify assembly and maintenance.

Product price:

€59.90 tax included

Lightweight, compact and bright, it's designed for gamers who want a practical case without sacrificing aesthetics.

Product features:

Main characteristics: CPU Cooler or Watercooling compatible: maximum height 155 mm
