

VIPER CRX DARK

A high-end chassis for extreme configurations: VIPER CRX is designed to accommodate your most ambitious configurations, compatible with ATX, mATX, and ITX. With a graphics capacity of up to 390 mm and a CPU cooler of up to 165 mm, it provides all the necessary space for powerful and scalable components. Its 270° view, thanks to its tempered glass front and panel, allows you to highlight your ARGB configuration and fully enjoy your high-end gaming setup.

Real-time monitoring with integrated LCD screen: VIPER CRX includes a front LCD screen that displays essential system information in real time. Using the Spirit of Gamer application, you can view the processor temperature, fan speed, and other key data, to keep track of the status of your machine while enhancing your configuration.

ARGB PWM cooling and water cooling for extreme performance: VIPER CRX includes 6 pre-installed ARGB PWM fans to provide a powerful and silent airflow. Thanks to PWM (Pulse Width Modulation) technology, the fan speed automatically adjusts to your system's temperature, ensuring the perfect balance between cooling and noise discretion. For the most demanding configurations, the case supports AIO water cooling up to 360 mm at the top and 240 mm on the panel, offering flawless thermal performance even under full load.

Premium storage space and connectivity: Enjoy modern connectivity with USB-C, USB 3.0 and HD Audio for fast transfers and maximum user comfort. The VIPER CRX includes 3 SSD 2.5" bays and 1 HDD 3.5" bay, combining speed and capacity for all your games, content, and multimedia projects.

A robust and practical design for purists: With its 0.8 mm SPCC steel chassis and tool-free opening system, the VIPER CRX offers high-end robustness and simplified maintenance. The removable dust filters and integrated cable management ensure a clean assembly, while its

tempered glass design highlights every detail of your ARGB setup for a spectacular visual effect.

Product features:

Main characteristics: Format: ATX, mATX, ITX

Main characteristics: Expansion ports: 7

Main characteristics: CPU: Maximum height 165 mm

Main characteristics: VGA: Maximum length 390 mm

Panel I/O: LCD screen: temperature display,

Panel I/O: 1 x USB-C / 1 x USB 3.0 / 1 x USB 2.0

Panel I/O: 1 x HD Audio (Headset/ Microphone)

Panel I/O: LED Indicators / Reset (or RGB)

Panel I/O: Power Button

Panel I/O: Downloadable from the Spirit of Gamer website, the application allows you to activate the built-in LCD screen and display system information in real time: processor temperature, fan speed, and much more.

RGB Addressable: Compatible: Asus Aura Sync, RGB Fusion Ready, MSI Mystic Light Sync, ASRock Polychrome Sync,

RGB Addressable: Control Hub Spirit of Gamer 60 RGB modes included (6 max fans)

Bays: 2.5" SSD: 3

Bays: 3.5" HDD: 1

Pre-installed fans (included): Wall C/M: 2 x 120 mm ARGB PWM

Pre-installed fans (included): Rear : 1 x 120 mm ARGB PWM

Pre-installed fans (included): PSU Compartment: 3 x 120 mm ARGB PWM
Fan slots (not included): Top: Space for 3 120mm fans
Design: ATX power supply (230 mm max), not included: special compartment slot.
Design: Cable management
Design: Tool-free opening (clip-on walls)
Design: Removable dust filters
Design: Tempered glass facade
Design: Tempered glass wall / SPCC Steel Frame 0.8 mm
Design: Chassis (L*W*H): 41 x 28.7 x 35.5 cm
Design: Case (L*W*H) : 41 x 28.7 x 36.1 cm
Design: Weight: 7 Kg
Watercooling supported: Top: 360 mm max
Watercooling supported: Wall: 240 mm max
